

SCHOOL BREAKFAST AS INSTRUCTIONAL TIME

ISSUE

Only 6 out of 10 students eligible for free and reduced price meals eat breakfast daily.

**272,938 Kentucky
kids are missing
school breakfast.**

BARRIER TO BREAKFAST

Schools are reaching more kids in the morning by serving grab and go breakfasts or breakfast in the classroom. These alternative breakfast methods increase access to meals and bust the stigma about eating breakfast at school.

INSTRUCTIONAL TIME

Administrators are limited by instructional time requirements and many cannot serve breakfast in the classroom. Students are missing out.

SOLUTION

**15 MINUTES OF
BREAKFAST AS
INSTRUCTIONAL TIME**

A revision to 702 KAR 6:060 would allow school district administrators to consider up to 15 minutes as instructional time when students consume breakfast in their classroom and educational activities are provided while students eat.

This sub-provision would enable schools and districts to implement alternative school breakfast delivery methods like breakfast in the classroom without amending their schools' instructional time.
